

# USER MANUAL (AXIGUIDE DUPLEX)

---

## GUIDE INSTRUCTIONS

### SETTING UP THE AXIGUIDE

#### STEP 1: Plug in the microphone

Before turning on the Axiguide, plug in the USB Type microphone to the device

#### STEP 2: Turn on the Axiguide

Turn on the Axiguide by connecting the Axiguide to the smart spot. The USB end into the external battery. The micro USB end goes into the Axiguide. Let it run for 1 minute before continuing!

### SETTING UP INSTRUCTOR SMARTPHONE

#### STEP 3: Connect smartphone to Axiguide

Use the original cable of your phone (must be able to transfer data) to connect your phone to the Axiguide by USB.

#### STEP 4: Provide Axiguide with Tethering

IOS: Turn on the Wi-Fi hotspot on your smartphone to provide internet to the Axiguide (Settings – personal Hotspot)

Android: Turn on USB tethering (Settings – Wi-Fi & Internet – Hotspot & tethering – USB tethering)

#### STEP 5: Let customers connect to Wi-Fi

Instruct the participants to connect with the 'axi.com' Wi-Fi network

#### STEP 6: Start your tour

Now you can start speaking and everyone (up to 7 people) can hear and speak when connected to the Wi-Fi.

## LISTENER INSTRUCTIONS

### SETTING UP SMARTPHONE

#### Step 1: **Connect to \_axi.com Wi-Fi**

IOS & Android: Go to: Settings – Wi-Fi – select: **axi.com**

#### Step 2: **Launch Internet browser**

Type in the following URL in the web browser: <http://axi.com>

#### Step 3: **Press Enter**

Press enter to continue and accept the terms of condition

#### STEP 4: **Voice on Air**

Now you can hear the guide speaking. You can choose to participate in the conversation (talking) or just listen to the guide (listening). Also you have the option to save all audio to your phone (only Android)
